**CORE COURSE 4 (CC 4)
ASSESSMENT FOR LEARNING**

Total Credits: 6
Total Marks: 100

Objectives:

1. To help prospective teachers in understanding critical role of assessment in enhancing learning.
2. To develop an understanding among prospective teachers about assessment for learning as a constructivist paradigm.
3. To develop an understanding of taxonomy of educational objectives.
4. To develop the skill of writing of objectives and specifications.
5. To develop enabling processes among prospective teachers to lead to better learning, more confident and creative learners.
6. To develop critically outlook among prospective teachers towards practices of assessment and selection.
7. To acquaint prospective teachers with an understanding of the concept and issues related to internal examination and external examination.
8. To enable prospective student teachers in understanding and analysing the psycho-social concerns of assessment.
9. To develop competencies among prospective teachers in using diverse methods and tools and techniques of assessment in an array of learning/performance outcomes of diverse learners.
10. To develop a critical understanding of issues in assessment and explore realistic, comprehensive and dynamic assessment processes among student teachers.
11. To develop an understanding of various statistical measures and their use for interpretation of results.

MODULE 1: FUNDAMENTALS OF ASSESSMENT

(2 Credits)

Unit 1: Concept of Assessment

- a) Meaning, Nature, Functions of Assessment
- b) Perspectives of Assessment (Assessment for learning, Assessment of learning & Assessment as learning)
- c) Types of Assessment: Meaning & Features (Placement, Formative, Diagnostic and Summative)

Unit 2: Essentials of Assessment

- a) Aims and Objectives- Meaning, Relationship between aims and objectives, and Criteria for writing statements of objectives.
- b) Learning outcomes- Meaning, Relationship between objectives and learning outcomes, and Criteria for writing statements of Learning Outcomes
- c) Assessment of Cognitive, Affective and Psychomotor domains of learning
 - Cognitive domain -Anderson and Krathwohl (Revised Bloom's taxonomy)
 - Affective domain -Krathwohl
 - Psychomotor domain - Dr. R.H.Dave

Unit 3: Trends and Issues of Assessment

- a) Continuous and Comprehensive Assessment (Meaning, Characteristics and Significance)
- b) Internal Assessment and External Examination (Meaning, Significance and Problems related to planning, conduct and assessment)
- c) Psycho-social concerns of Assessment (Implications)
 - No detention Policy (RTE Act, 2009)
 - Competitive ranking of schools
 - Profiteering by private agencies

MODULE 2: INSTRUMENTS OF ASSESSMENT AND REPORTING OF RESULT

(2 Credits)

Unit 4: Instruments of Assessment

- a) Characteristics of a good measuring instrument
- b) Tools and Techniques of Assessment (Meaning, Guidelines of development & Uses):
 1. Checklist
 2. Rating Scale
 3. Rubrics
 4. Anecdotal Records
- c) Achievement Tests:
 1. Performance Tests: Oral & Practical assessment (Merits, Limitations, Suggestions for improvement, Criteria for evaluation)
 2. Written Test- Essay & Objective type (Merits, Limitations, Suggestions for improvement, Criteria for evaluation)
 3. Open Book Examination and Online Examination (Merits & Limitations)

Unit 5: Differentiated Assessment Strategies

- a) Meaning and purpose of Teacher assessment, Self-assessment and Peer assessment
- b) Criterion Referenced Tests and Norm Referenced tests (Meaning, Characteristics)
- c) Records used in Assessment (Meaning, Guidelines of development & Uses):
 1. Cumulative Records
 2. Student Portfolio
 3. Learner Profile
 4. Reflective Journal

Unit 6: Feedback Mechanism & Reporting

- a) Concept & Criteria of Constructive feedback.
- b) Reporting (Meaning and Types of Reporting)
- c) Statistical Application for Interpretation and Reporting:
 1. Calculation and Interpretation of Mean and Median
 2. Interpretation of Standard Deviation with reference to Normal Probability Curve
 3. Interpretation of Percentile and Percentile Rank

(2 Credits)

MODULE 3: INTERNAL ASSESSMENT

Sr.No	Particulars	Marks
1	Task/Assignment/ Activity for each module held in the semester (2X10)	20
2	One periodical class test held in the given Semester	15
3	One Essay test held in the given Semester	05
	Total	40

Any two of the following tasks:

- Prepare a Blue print and a test in the school subject opted for. (Compulsory)
- Study and Compare the implementation of CCA of different school boards.
- Critically review educational policies on reforms in assessment.
- Comparative study of Assessment of different countries.

ABILITY COURSE 1 (AB 1)
CRITICAL UNDERSTANDING OF ICT

Total Credits: 3

Total Marks: 50 (Internal)

Objectives

1. To develop an understanding of the concept of ICT
2. To practice safe and ethical ways of using ICT.
3. To use ICT in Teaching Learning, Administration, Evaluation and Research.
4. To design, develop and use ICT based learning resources.
5. To develop an understanding of the concept of Open Education Resources and Creative Commons in education.
6. To evaluate ICT based learning resources.
7. To adopt mobile learning, open learning and social learning in the classroom.

MODULE 1: ICT IN EDUCATION AND ITS IMPLICATIONS (1 Credit)

Unit 1: Understanding of ICT in Education

- a) Information and Communication Technology: Concept and Importance
- b) Role of teacher in ICT enabled education - Administrator, Facilitator and Evaluator
- c) Legal and ethical issues in the use of ICT - Hacking, Violating of copyright, Plagiarism

Unit 2: Designing Technology Integrated Learning Experiences

- a) Instructional Design –Develop ADDIE model Instructional Design based on School topic.
- b) Develop Learning Resources on a topic using ICT tools (Script writing and Story board) and Critically evaluate it by using rubrics
- c) Learning Management System (LMS) – Concept, Features and Applications

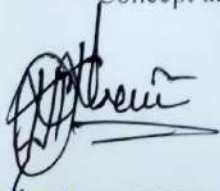

MODULE 2: TEACHER AND ICT ENABLED ADMINISTRATION, EVALUATION AND RESEARCH (1 Credit)

Unit 3: Emerging Trends in E-learning

- a) Mobile learning – Concept, Features and uses of any ONE Mobile application for teaching and learning.
- b) Social learning- Concept, Use of web2.0 tools for learning (Social networking site, Blog, Chat, Video conferencing, Discussion forum)
- c) Open Educational Resources, Creative Common, Massive Open Online Courses (MOOCs) – Concept and Applications

Unit 4: Use of ICT in Evaluation, Administration and Research

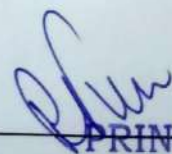

- a) e Portfolio – Concept and Development
- b) ICT for Research- Online Repositories & Online Libraries
- c) Online and offline assessment tools (Online Survey tools or Test generators) - Concept and development

MODULE 3: SUGGESTED TASK/ASSIGNMENT ACTIVITIES (ANY FOUR)

(1 Credit)

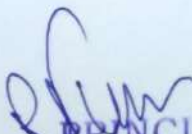

- a) Select a case study/report related to legal and ethical issues in use of ICT. Discuss your case using any mode of online discussion forum. Submit the screenshots of your group discussion.
- b) Develop and critically evaluate a CAI package (Script writing and Story Board) using ADDIE model of Instructional design for any topic of your choice.
- c) Using any LMS carry out the following activities for facilitating learning in any of the unit of your choice:
 - Identify resources for a topic of your choice and upload it.
 - Use any discussion forum available for the discussion on the uploaded learning material.
 - Generate a test.
- d) Submit a reflective report on it.
- e) Develop and Manage a Social Networking site /Blog / Chat forum for college based on ICT course. Submit the report for the same with empirical evidences.
- f) Select a topic relevant to education, collect Open Educational Resources (Text, Multimedia, Website references) and analyze the type of license used in the Open Educational Resources. Submit the report for the same with evidences.
- g) Select an educational problem and conduct an online survey. Submit a report on the procedure and analysis of the survey result along with screen shot.

Semester wise details of Project Based Courses (Part B)

Semester I (All activities should be systematically documented and maintained for the purpose of internal assessment)

- Participation in Community work I in collaboration with schools/ NGO's (for a period of 1 week)
- Participation in Co-curricular Activities in college

Semester II (All activities should be systematically documented and maintained for the purpose of internal assessment)

Internship for 3 weeks

- ✓ Observation of school activities (Any three)
- ✓ Observation of lessons given by peers (5 lessons)
- ✓ Shadowing of School Teacher (One Week) - 5 lessons to be observed and recorded in Pedagogy of school subject I
- ✓ Teaching lessons in Pedagogy of school subject I (5 Lessons)

Semester III (All activities should be systematically documented and maintained for the purpose of internal assessment)

Internship for 11 weeks

- ✓ During Internship teaching not less than 10 lessons in the opted Pedagogy of school subject I distributed over different standards from V to XII of recognized secondary and higher secondary Schools/ Colleges selected by the Principal as practicing School/ College
- ✓ 2 theme based lessons in the above school/college.
- ✓ 3 co-teaching lessons with school teachers
- ✓ Administration of Unit Test and analysis of results (in the pedagogy of school subject I opted)
- ✓ Maintain Reflective Journal with reference to internship program.

Semester IV (All activities should be systematically documented and maintained for the purpose of internal assessment)

Internship for 5 weeks (4 weeks +1 week community work II)

- ✓ Develop learning resources
- ✓ Conduct Action Research
- ✓ During Internship teaching not less than 5 lessons in the opted pedagogy of school subject II distributed over different standards from V to XII of recognized secondary and higher secondary Schools/ Colleges selected by the Principal as practicing School/ College. For those students who have opted Peace Education or Education for Rural Development they have to take 5 lessons from Pedagogy of school subject I.
- ✓ 5 Co-teaching lessons with peers
- ✓ Maintain Reflective journal with reference to internship program.
- ✓ Participation in Community work II in collaboration with schools/ NGO's (for a period of 1 week)

Programme Structure of B.Ed. 2 Years Programme

Year 1: 16-18 Weeks * 2 Semesters (200 Working Days)

Year 2: 16-18 Weeks * 2 Semesters (200 Working Days)

20 Weeks for Internship (18 +including 2 weeks Community work)

200 working days are exclusive of admission and examination period

Total Credits: 111; Marks 1800 (1 Credit = 12 Hours)

INTRODUCTION

LEARNING MANAGEMENT SYSTEM (LMS)

In the early '90s some **Luther Seminary (St. Paul)** faculty members were struggling to retain students who didn't have the funds or, because of family obligations, couldn't relocate to attend seminary. **Tom Walber** knew there had to be some kind of tool that would enable people to communicate with each other without being in the same place at the same time.

Learning management systems (LMS) also sometimes known as **Course management systems (CMS)** have come a long way since those early days.

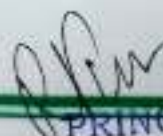

DEFINITION

- **Learning Management System (or LMS)** is a broad term used to describe software tools designed to manage user learning interventions and provide access to online learning services for students, teacher, and administrator.
- A software system that allows the development and delivery of educational courses using the Internet as a delivery system.

Co-ordinator IQAC
Konkan Muslim Education Society's
College of Education, Bhiwandi
Dist. Thane

PRINCIPAL
Konkan Muslim Education Society's
College of Education Bhiwandi
Dist. Thane

EXAMPLE OF LMS

Blackboard: Popular learning software provider and ASP portal for education.

Moodle : a free, Open Source software package, to help educators create effective online learning communities.

EDMODO

What is Edmodo?

- Free, secure, social learning platform for teachers students, parents, and schools.
- Provides teachers and students with a secure and easy way to post classroom materials, share links and videos, and access homework and school notices.
- Teachers and students can store and share all forms of digital content – blogs, links, pictures, video, documents, presentations, and more

Everyone loves a boat ride. I too always wanted to experience it but never had a chance. Last vacation I finally got an opportunity to enjoy my first boat ride. After my final exams, my father planned a trip to our native village in Ratnagiri to my grandparent's house. It was great fun, as all my Uncle, aunts and cousins, had also come.

Within 2-3 days all the kids in the family had finished exploring the house and the village we were now getting bored as there was no TV or internet connection. So my Uncle decided to take us on a boat ride.

All the kids started shouting with excitement as soon as the boat left the water. But I was sitting still with my eye closed, thinking that the boat may overturn and we may fall into the water. I experienced the beauty of God's creation.

INTRODUCTION

LEARNING MANAGEMENT SYSTEM (LMS)

In the early '90s some **Luther Seminary (St. Paul)** faculty members were struggling to retain students who didn't have the funds or, because of family obligations, couldn't relocate to attend seminary. **Tom Walber** knew there had to be some kind of tool that would enable people to communicate with each other without being in the same place at the same time.

Learning management systems (LMS) also sometimes known as **Course management systems (CMS)** have come a long way since those early days.

DEFINITION

- **Learning Management System (or LMS)** is a broad term used to describe software tools designed to manage user learning interventions and provide access to online learning services for students, teacher, and administrator.
- A software system that allows the development and delivery of educational courses using the Internet as a delivery system.

Co-ordinator IQAC
Konkan Muslim Education Society's
College of Education, Bhiwandi
Dist. Thane

PRINCIPAL
Konkan Muslim Education Society's
College of Education Bhiwandi
Dist. Thane

EXAMPLE OF LMS

Blackboard: Popular learning software provider and ASP portal for education.

Moodle : a free, Open Source software package, to help educators create effective online learning communities.

EDMODO

What is Edmodo?

- Free, secure, social learning platform for teachers students, parents, and schools.
- Provides teachers and students with a secure and easy way to post classroom materials, share links and videos, and access homework and school notices.
- Teachers and students can store and share all forms of digital content – blogs, links, pictures, video, documents, presentations, and more

SCRIPTED LESSON PLAN

The lesson is planned for STD VII (S.S.C BOARD).

Lesson no. 14 FOOD AND PROTECTION OF FOOD.

The objective is to introduce the constituents of food and help the student to understand the concept of a balanced diet.

Lesson plan

PREVIOUS KNOWLEDGE: Student knows about the need of need for living beings.

INSTRUCTIONAL OBJECTIVES	SPECIFICATIONS
Remembering The pupil recalls the different needs for food consumption by living beings	The pupil is retrieving the different needs of living beings for food to live and function normally.
Understanding The pupil interprets the different constituent of foods.	The pupil is interpreting the different constituents of food.
Applying The pupil implements the concept of balanced diet.	The pupil is implementing the knowledge of balanced diet
Analysing The pupil differentiates between a balanced diet and an unhealthy diet.	The pupil is differentiating between a balanced diet and an unhealthy diet.
Evaluating The pupil explains what makes a balanced meal.	The pupil is summarizing the different types of food that makes a balanced diet.

Teaching aids: Pictures of food items, slideshow of a story for set induction, video on food constituents and balanced diet, flash cards of constituents of food, cards with pictures of food, 2 sets of 6 paper plates (1 plain, 1 marked).

Core Elements and Values Inculcation of scientific temper, scientific attitude, constitutional obligation, democracy, secularism, removal of social barriers.

Methods/ Techniques/ Skills: Set induction, explanation, inductive method, questioning, evaluating.

Set Induction:

Teacher's activity	Pupil's activity
1. Teacher holds pictures of food items and asks a question: What do you see?	Students observe carefully and answer: Food products.
2. Teacher then tells a story through a PPT : Priya goes to the market and brings milk and fish. On reaching home, she keeps the milk packet and the fish on the kitchen counter. Just then she receives a call from her mother who is sick. She immediately rushes to her mother's house. All the food items are kept on the table. She returns home after 2 days.	Student listens carefully.
Teacher questions:	Student answers.
• What will happen to the milk packet?	Student answers.
• What will happen to the fish?	Student answers.
• Will they remain fresh?	Student answers.
• What should have Priya done before leaving the house?	Student answers.

<ul style="list-style-type: none"> • Is that saving the food from rotting? • What is the action of saving the food from rotting, called as? 	<p>Student answers.</p> <p>Student answers.</p>
---	---

Statement of the aim: So today we will be studying about **FOOD AND PROTECTION OF FOOD.**

LEARNING EXPERIENCES

Teaching points	Teaching activity	Learning activity
Food : importance of food in our lives.	1. Teacher starts a discussion by holding up a picture of a pathway divide in two roads,  one leading to popular fast food items and another towards fruits and vegetables and asks the students; Which do they think is better and healthier for their bodies?	Student observes carefully and answers.
	2. The teacher then asks the students if they ever thought about what they were putting into their bodies before they ate something.	Student answers.
	3. The teacher then explains that in order to be healthy children they should be eating more of certain foods and less of others.	Student listens carefully.
	Teacher shows a video of the different constituents of food and the importance of balanced diet.	Student views with interest.
	Teacher holds a flash card of foods containing Carbohydrates	Student observes and listens carefully

	<p>nation we should follow the constitutional obligations.</p> <ul style="list-style-type: none"> • Also, as we see that together all foods make a healthy diet, similarly we should remove all social barriers and be secular and democratic with each other for a healthy society. 	
--	---	--

Recapitulation: What are the different constituents of food?

Application: If you are offered a plain cheese pizza, what ingredients would you add to make it a healthy meal.

Evaluation: Student Assessment

Teacher asks 6 students to play a game of "MAKE YOUR OWN MEAL"

- The teacher places a cardboard box filled with cards with pictures of food products on them.
- The teacher instructs the students each to pick up a plate

and instructs 2 students each to make a meal for themselves. 2 for breakfast, 2 for Lunch, 2 for Dinner.

- The students make a meal for themselves.
- The teacher then gives them a plate which is marked with the amount of portions.

- The teacher instructs the students to put each food product in its marked portion.
- The students then are asked to observe their meals.
