Good thoughts

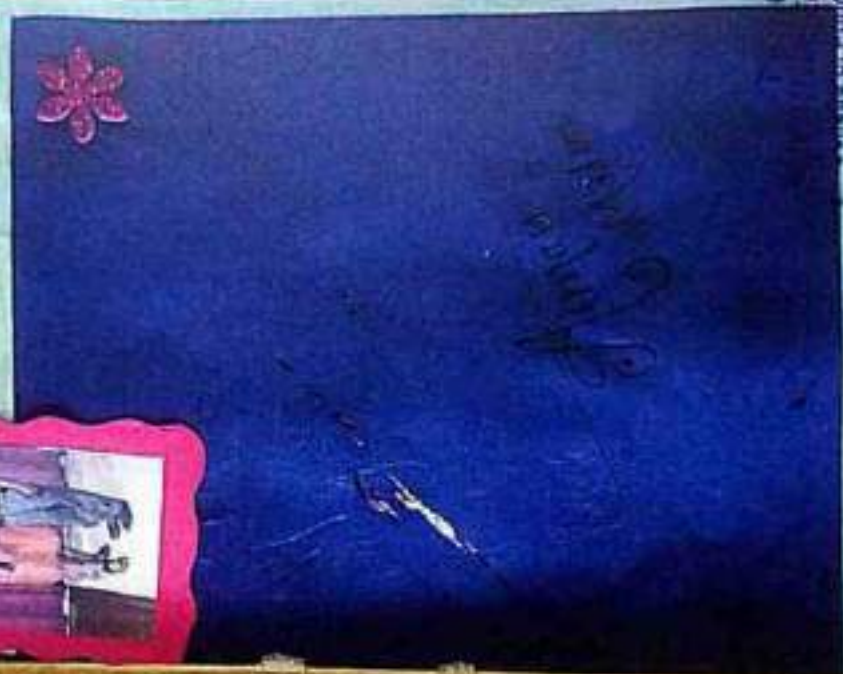

- * Don't make excuse, Make improvements.
- * The best gift given by god is TEACHERS.
- * Teachers shows us right path.
- * We have to always respect our Teacher.
- * Teachers are the key of the door but we have to entered in it by ourselves
- * If we do this all thing really we become the topper, not of only class topper, but becomes world Topper.

Electrical Hazards Awareness Programme.

DATE:- 1st August 2018 Std: VIII
DAY: Wednesday.

ohhh No--!!

Through this awareness programme, students were aware of the hazards of the electric shock. How to use the switch and switch board. What preventive measure should be done, what we have to do if someone get shock etc.

Electricity can pass through water and likewise it can quickly pass through our body since our body contain 70% water.

- * Do not overload circuit.
- * Don't use anything electrical near water.
- * Don't put your finger into electric socket
- * Stay away from transformer.
- * Do not touch the person or electrical apparatus in the event of an electrical accident.
- * Always disconnect the power source first. etc.

I made the group of 15 students and arranged the audio-video clip: Indoor electric safety. Electric safety video

to understand the concept of programme clearly. Slogan was also shown by me.

DON'T PUT YOUR LIFE ON THE LINE

REPORTING

Project

My Internship programme Experience:-

Firstly, I want to say that I am very lucky to have internship experience. It was unique and the best experience of my life. After gaining this experience I get to know that teaching is the best profession that can do. I realized that this profession require a lot of effort.

The school that I went to was Maluma English Primary, High School and Jr. College.

In this programme I made ten lesson plan. I explained that lesson through teaching aid. By explaining this lesson I get the experience of teaching and at the same time, I had to managed the class too, so the students can't make noises.

At starting I get little scared that how will I managed all those things. But after few days I made very friendly connection with the students and teachers too. So, It helped me to gain my confidence and my way of teaching.

friendly connection, students started asking me questions if they have any doubt.

I had an lesson of co-teaching too. My co-teacher was Anjum Shaikh ma'am while teaching with her I gain a different kind of experiences of how can we teach with someone I have to collaborate with my co-teacher and we were teaching the same lesson. I could see and observe the teacher explaining and maintaining the class at the same time.

There was a theme based lesson in which I had to teach the lesson which was based on some theme. My theme is Mensuration, equality systematization. I explained it with examples and it was good experience. It's more fun to teach and learn using a theme. I developed the quality to be punctual as I had to reach in time (In school as well as for the lecture)

There was a geography workshop held in school. For this program we arrange the hall of the school properly. Decorate the board that relevant to workshop. And helped the professional teachers in making the refreshment. It was a great memory. I've enjoyed in preparation.

I got the Proxy Period and it was in lower level standard (III, IV, II) for me it was not that easy to maintain the class silent.

But still I have tried my best and my confidence level increase in handling the

Even I conducted the Unit test, for this I gain the knowledge of how to make the paper (Question paper). The great feeling was that I am examiner or supervisor in this test not as a student. i.e. got experience of how to examine the students in exam hall.

There were several activities that held on such as curricular & co-curricular.

In this Poetry recitation contest was one of the best and challenging activity because I had to announce or judge the student on the spot. So for this judgment should be careful. Finally I made the decision. I realized the responsibility of Judges is quite difficult.

Whole the sport activity such as BOOM BOOM BALLOON and Dropping coin into water, I came to know that how to unite students and how to manage or bring the student together. It was quite difficult to handle the students because they were get little bit indisciplined and then I got a new experience. I have never done this before. Good experience of conducting activities. Through the Card Making Competition I understand the different ideas of making Handmade card.

Classroom Management was another area which I learned a lot about during the Internship. My biggest take away about classroom management is the relationship piece. When I started building ~~relationship~~ **Co-ordinator IQAC** with my students, the **PRINCIPAL** **Koshan Muslim Education Society's College of Education Bhiwandi** **Dist. required effort to control the students.

One of the best part of the internship was the Awareness activity. students showed lots of interest in this activity. In Road Safety awareness beside the students I too get knowledge of road safety, different road sign etc which I was unaware. After this activity I seriously following or try to see the sign board and recalling their meaning. It was the great experience because it enhances my information. ^{111th} for Electric Hazard awareness. Also preventive measure was also understand through this activity. I developed an ability to conduct the awareness programme.

There was Interview section with headmiss, Librarian, laboratory incharge and method teacher (Maths teacher). The main experience I get by this is how to conduct an interview. I have always heard about interviews but never conducted. It was very different kind of experience and also I know the teacher's point of view, the way of teaching and how they maintain discipline and others work and the fulfillment of their aims and ambitions.

On the last day of the internship Prize Distribution was there. The winner students of all the activities were rewarded. Buying the Prize and wrapping in creative way is important for me. That day ~~about~~ enjoyed a lot. I developed the feeling of guest just the guest gave the prize to the students of school.

I learned a lot about my strength and weaknesses during an internship. I got the good feedback from the teachers and supervisor. My level of confidence is increase by this internship programme. I was exploring new new ideas of activities and understand the different duties that has to performed by the teacher while teaching professionally in school.

Overall my Internships programme was very positive. The things I would change are small and easy changes to make, and the things I have learned are invaluable.

It was a great experience. It's definitely unforgettable.
