REPORT ON VENTEL

As an initiative towards learning with a vocational education and experience learning platform VENTAL was introduced in the college to a different number of activities. Students got to take part in different activities such as community engagement exhibition of vocational craft, Mask making, Self Reliance and swachata and hygiene.

These activities gave a whole new understanding to the students of the way of learning by doing. Students were surprised to see their own hidden talents when they were asked to bring out what talents and skills they have with which they can learn and also earn at the same time.
