### Curricular Adaptations for Disability

ACCOMMODATIONS	ADAPTATIONS
Accommodations are changes to the curriculum, instruction, or testing format or procedures that allow a student to demonstrate their abilities <b>without</b> fundamentally altering the requirements. Accommodations can be identified for students eligible for a 504 Accommodation Plan or an IEP.	An adaptation is a change to curriculum, instruction, or assessments that <b>fundamentally alter the requirements</b> , but will enable a student with a disability that significantly impacts performance an <b>opportunity to participate</b> . Adaptations are part of specially designed instruction for students eligible for an IEP.

### 9 Types of Adaptations To Be Carried Out:

1. Size: Adapt the number of items that the learner is expected to learn or complete.  
e.g. Reduce the number of social studies terms a learner must learn at any one times.
2. Time: Adapt the time allotted and allowed for learning, task completion, or testing. Individualize a timeline for completing a task, pace learning differently (increase or decrease) for some learners.  
e.g. For solving mathematics sums some students may require more time. For writing essays too.
3. Input: Adapt the way instruction is delivered to the learner. Use different visual aids, plan more concrete examples, provide hands-on activities, place students in cooperative groups.  
e.g. Use different visual aids; plan more concrete examples; provide hands-on activities; place students in cooperative groups.
4. Difficulty: Adapt the skill level, problem type, or the rules on how the learner may approach the work.  
e.g. Allow the use of a calculator to figure math problem; simplify task directions; change rules to accommodate learner needs.
